To whom it may concern,

We are pleased to provide this letter of recommendation regarding the successful implementation of the International project Fill&GO at the Rompetrol group companies from Romania, Bulgaria, Ukraine, Georgia, France and Spain.

Mr Andrei Popovici accomplished the role of quality assurance manager. In addition, he collaborated very well with the beneficiary team, implementing the quality requirements specific to the industry in conjunction with the legislation of the respective countries.

We recommend Mr. Andrei Popovici for participation in similar projects with high degree of complexity.

With respect,  
Marius Pascu  
Sales director
